Franklin Styne

AI, AGENTIC AI & AUTOMATION TRAINER

Training Partner Kit

Everything a training provider needs to propose and deliver practical AI programmes with Franklin Styne.

Who I am

I work alongside training providers to design and deliver high-quality AI programmes for their clients, bringing over 40 years of experience across technology, business management and teaching. More than the tools, participants build the mindset to work side by side with AI and apply it to their daily workflows. For large groups and multi-batch rollouts, I am supported by a network of experienced trainers and facilitators.

What I bring

Course outline in your format
Objectives, modules, schedule and methodology, adapted to your template.

Workflow-focused materials
Exercises built around the client's industry, job roles and daily work.

Delivered under your brand
Your organisation's brand and materials, aligned with your training standards.

Post-training summary
Group projects, outcomes and recommendations for the client's next stage.

Trainer documents
Trainer profile and HRD Corp trainer certificate (ID 13169), included in this kit.

Delivery records
Attendance, assessments and evaluations completed as your process requires.

Confidentiality
Client information, materials and commercial arrangements handled in confidence.

A record of repeat business
Satisfied clients regularly return to their training provider for further cohorts and advanced levels.

How an engagement runs

STEP 1
Enquire
Share the client's industry, dates, numbers and topic.

STEP 2
Propose
I recommend a programme and send the outline and documents.

STEP 3
Tailor
A short call to understand roles and pain points.

STEP 4
Deliver
Hands-on training ending with group projects.

STEP 5
Close out
Attendance, assessments and evaluations for the claim.

HRD Corp. In Malaysia, I work with HRD Corp registered training providers, so programmes are claimable by eligible employers under HRD Corp schemes. Outside Malaysia, I deliver programmes with partners in Brunei, Indonesia and India.

TRAINING PARTNER KIT

Programmes

PROGRAMME	SUITABLE FOR	PARTICIPANTS LEAVE WITH	TOOLS
AI Foundations for Workplace Productivity	Teams new to AI	A personal prompt toolkit and finished outputs from their own tasks	ChatGPT, Gemini, Claude
Microsoft 365 Copilot for Productivity	Organisations using Microsoft 365	Copilot workflows for their own documents, data and meetings	Copilot, Copilot Chat
AI Automation for the Workplace	Operations, admin and process owners	A working automation for a real process	n8n, Power Automate, Claude
AI Agents for the Workplace	Managers, knowledge workers, IT	A tested workplace agent with guardrails and a rollout plan	Claude, Copilot agents, n8n

All programmes run as 1-day or 2-day sessions, in-house, public or live online, and end with a group project and presentation. Custom programmes are available for specific audiences such as educators, HR and finance teams.

Profile

With over 40 years across technology, business development and leadership training, Franklin brings a rare blend of technical depth and commercial judgement to every room he trains. Passionate about AI since the 1980s, he began as a computer programmer and systems analyst building expert systems, an early form of AI, then spent decades driving international growth as Head of International Business Development for a global company.

Today he channels that experience into practical, hands-on training in Generative AI, Microsoft 365 Copilot, Gemini, AI automation and AI agents. Participants learn more than the tools: they develop the mindset to work side by side with AI and build it into their daily workflows, guided by a trainer whose years in management give him a clear understanding of their pain points. Sessions are tailored to the room, from educators and engineers to HR teams, communications units and senior management.

Franklin makes learning AI enjoyable and approachable. Sessions are lively, interactive and jargon-free, so participants leave confident to apply AI the very next day.

Training focus

- Generative AI adoption with ChatGPT, Microsoft 365 Copilot and Gemini in Google Workspace
- AI-assisted writing, research, analysis and content creation
- Workflow automation with AI for sales, marketing, HR, customer service and planning
- Agentic AI: designing and building workplace AI agents with the right human checkpoints
- Leadership development and business coaching for growing teams
